Exam Overview

The FCC Amateur Extra Class exam is the highest level of amateur radio license available in the United States. It is a challenging exam, but it is also very rewarding. Passing the exam will give you the privilege of operating on all amateur radio bands and modes.

The exam consists of 50 multiple-choice questions. The questions cover a wide range of topics, including:

- Radio theory
- Antenna design and construction
- Propagation
- Operating procedures
- Regulations

You must correctly answer at least 74% of the questions to pass the exam.

Exam Preparation

The best way to prepare for the FCC Amateur Extra Class exam is to study the official question pool. The question pool is available on the FCC website.

In addition to studying the question pool, you should also practice taking practice exams. Practice exams will help you get a feel for the format of the exam and the types of questions that you will be asked.

There are a number of resources available to help you prepare for the exam, including:

- Online courses
- Books
- Study groups
- Practice exams

It is important to start studying for the exam early. The more time you have to prepare, the more confident you will be on exam day.
