2. Print and Prepare the Pattern:

Print the plastic canvas pattern for your chosen zodiac sign. Place the pattern over a piece of plastic canvas and secure it with tape or weights to prevent shifting during stitching.

3. Stitch the Zodiac Symbol:

Begin stitching the zodiac symbol according to the pattern using yarn in the specified colors. Use a yarn needle and follow the printed grid for accurate placement of stitches. Take your time and ensure each stitch is secure and even.

4. Fill in the Background:

Once the zodiac symbol is stitched, fill in the remaining canvas area with yarn in a color that complements your zodiac sign. This step will provide a solid background and enhance the visibility of the symbol.

5. Embroider Details (Optional):

For added personalization, you can embroider additional details onto the stitched piece. This could include zodiac sign dates, astrological symbols related to the sign, or your own creative embellishments.

6. Cut Out the Keychain:

Once the stitching is complete, carefully cut out the zodiac shape from the plastic canvas using scissors. Leave a small margin of extra canvas around the edges for durability.

7. Attach Keychain Ring:

Thread a keychain ring through the small, pre-punched hole in the top of the zodiac shape. Securely fasten the ring to prevent the keychain from slipping off.

8. Repeat for Remaining Signs (Optional):

Repeat steps 1-7 to create keychains for all twelve zodiac signs, creating a celestial collection that represents the entire zodiac wheel.

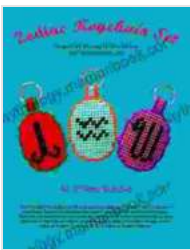

Tips for Success:

- Use a high-quality plastic canvas that is sturdy and won't fray.
- Tension the yarn evenly throughout the stitching process.
- Take breaks if needed to avoid hand fatigue.
- If you make a mistake, simply pull out the incorrect stitches and start again.
- Experiment with different yarn colors and textures to create unique and personalized keychains.
